

## Epilepsy Policy Advisory Committee

### Role:

The Epilepsy Foundation's Epilepsy Policy Advisory Committee provides input and guidance on the Foundation's advocacy and policy agenda that works to overcome the challenges of living with epilepsy and accelerate therapies to stop seizures, find cures and save lives. Working at the charge of and in coordination with the Foundation's Advocacy team, the Committee advises on various matters including finalization of the Foundation's annual policy agenda and the Foundation's position on new and/or complex policy issues.

### Responsibilities:

- Provide input on finalization of the Foundation's annual policy agenda at the federal and state levels;
- Provide perspective and input on the Foundation's position on new and/or complex policy issues;
- Attend and actively participate in an annual meeting to occur in the Fall that finalizes the Foundation's policy agenda for the upcoming year;
- Attend and actively participate in meetings as needed throughout the year;
- Stay informed and engaged on the Foundation's advocacy and policy work through various means including being part of its Speak Up! Speak Out online advocacy network;
- Build relationships with elected officials and represent the Foundation in advancing its policy agenda as needed;
- Be an ambassador of the Foundation's advocacy work, educating others about the Foundation's advocacy and recruiting others to become advocates; and
- Log hours and report advocacy volunteer activities in VolunteerHub on a monthly basis.

### Qualifications:

- Passionate about driving systemic change through advocacy; prior government relations or policy experience is not necessary but is beneficial;
- Knowledge of or interest in the Foundation's policy priority issue areas of access to health care, disability rights, research and innovation and funding/appropriations;
- Responsible and accountable;
- Ability to work individually and collaboratively;
- Personal relationship to and/or professional experience with the epilepsies; and
